

# Human-animal resource providers can help create a Socially Conscious Animal Community by:

Providing support for families in need that enable pets to remain in the home

Seeking to find the resource disparity within their community and strategically developing solutions to fill those gaps

Providing the community with education in order to strengthen the human-animal bond

## PROGRAMS AND SERVICES MAY INCLUDE:

- Pet food resources
- Affordable veterinary care (spay-neuter, vaccines, wellness)
- Affordable behavior support
- Humane education for adults and children
- Community outreach programs
- TNR programs
- Connections to human-health care services

Socially Conscious  
Animal Community™
